

LINE O' SMILES

By Gloom Chaser

Hello neighbors, for team work the cigaret stub and the wastebasket has any other combination beaten off the map.

"Doc Smart has a new dishpan at his house." It's a pithy bit of news from a California exchange. "Bob used the one that was in service to give his bull pup a bath in why say more?"

A MAN MAY CARRY A SPARE TIRE AND STILL HAVE NO TIRE TO SPARE.

The average husband is either in bed or in bad at eleven P. M.

The reason bachelors live longer is because no gentle tyrant requires them to take something when they feel a little out of sorts.

Modern women may admire these Egyptian styles of costume, but the mummies themselves were all wrapped up in them.

NOTHING SUCCEEDS LIKE SUCCESS—EXCEPT A LARGE INHERITANCE.

We read that in St. Petersburg, Fla., the other day a thief stole a bathtub. We have often heard of a person taking a bath, but seldom of anyone taking a bathtub.

Frank Scholer thinks that another unequal tax is having to pay all kinds of congressmen the same salary.

WHEN PICKING YOUR FRIENDS BE CAREFUL AND DON'T PICK THEM TOO MUCH.

The boy with the dirty hands and ears may be your state health officer some day, warns Dr. C. R. Blake.

Just charge it, said the sweet young thing when she left her storage battery at the garage.

A hick town is a place where the neighbors know something is wrong when your lights burn after 10 o'clock.

Many people take dope for what they think ails them when all they needs is a long walk.

A fellow who has worked out in the open all day, Herb Schrader finds, doesn't have to have any magazine article to tell him how to go to sleep.

HOUSEHOLD HINTS
The smell of onions may be taken from the breath by chewing a little garlic.

Flour added to dough will be found to make bread much more palatable.

Carpets can be held tight to the floor by the use of spikes.

If the banging of doors bothers you, the annoyance can be obviated by using the windows.

Rockefeller says save it and Ford says spend it. Perhaps it is a fifty-fifty policy that keeps us all poor.

Dr. W. W. Fraser would like to know if bootleggers hold rummage sales.

Richard, come back. Return to your wife and family. The phonograph has been sold.

A little thing like the truth does not disturb some people when they are trying to produce an argument.

DON'T MONKEY WITH A FOOL'S GLAND NOR FOOL WITH MONKEY GLANDS.

In this old world you'll find. A lot of honest fellows who think it is no crime to walk off with umbrellas.

May Garrard tells us that Adam was a man who had trouble with one of his ribs.

NOTED LANMARK IS RAZED

FLAMES SWEEP OVER MOUNTAIN DESTROY TAVERN ON TAMALPAIS

The Tavern, famous structure on the summit of Mt. Tamalpais in Marin county, was totally destroyed yesterday afternoon by a fire which illuminated the skies for miles around. The destruction of the summer retreat is said to a grass fire which is believed to have started from a campfire which some camper had failed to extinguish.

The flames from the grass fire quickly ignited the wooden structure and the building was doomed before fire fighting equipment could be sent from Mill Valley. The guests and other visitors on the mountain, who included fifty doctors in attendance at the medical convention in San Francisco, were forced to stand by and watch the building burn to the solid rock base on which it was erected.

The Tavern was built in 1900 and has housed thousands of tourists from all parts of the world. The spacious dining room, large main office and other parts of the building had been refurbished only recently.

Goddess Dance Draws Crowd At Winters' Hall

Winters' beautiful recreation hall contained one of the largest crowds in its short history last night when a dancing party was staged for the benefit of the candidates for Goddess of Liberty in the Fourth of July celebration. The large proceeds from the affair will be evenly divided among the seven candidates for the coveted honor.

Ed. Dale headed the floor committee while Levi Roster was chairman of the reception committee. Music was supplied by Shaw's orchestra.

F. C. Husing and Orpha Rose won the cash prize for the best wait, and they turned the sum over to the Goddess of Liberty fund. The prize for trot was a tie between Eddie Anderson and Hattiebell Freeman and J. Mattheu and Louise Repoz.

San Jose Budget For This Year Totals \$464,000

SAN JOSE, June 30.—Expenditures totaling \$464,000 for the coming fiscal year by the city of San Jose are provided for in a budget presented to the city council by City Manager Clarence B. Goodwin. The new budget is an increase of 4 per cent over last year's which amounted to \$445,000. This is said to equal the growth of the city in the past year. The city's revenue for the coming fiscal year is estimated at \$466,000 leaving a balance of \$2,000 over estimated expenditures. Of this sum it is estimated that \$341,000 will be raised by taxation; \$100,000 from revenues of city departments, and an estimated balance of \$25,000 on taxes due November 30, 1923.

Oh prospecting on 2,000 acre tract to start at once.

Shop Edition Of Paper Full Store News

Today's issue is the shopping edition of the Record-Herald for Monday and Tuesday. It is not only replete with the news of the day, but it contains a world of store news, which are the advertisements. But they contain the business news, and the merchants are offering the housewife an opportunity to get what is needed before the Fourth of July.

The merchants of Richmond, who believe in telling the people what they have to sell, can be found in this issue, and many wonderful bargains are offered. Big inducements are being offered, and it is well worth the time of everyone to read the advertisements. In some instances reductions have been made as great as 50 per cent.

Patriotic Rally At Wesley Church This Evening

Sunday night at the Wesley Methodist church a patriotic service in keeping with Independence Day will be held. There will be a patriotic song service at the beginning in which both the chorus choir of twenty-five and the splendid orchestra directed by J. E. Hill will take part. "Special music will be anthem: 'Great and Marvelous,' taken from Farmer's Mass, and given by chorus and orchestra, a combination of forty singers and musicians. Mr. Church will give a selection with the violin, and the orchestra will play 'The Flow Song.' Dr. Frank K. Baker, pastor of the church, will give a patriotic sermon 'Our Nation; Its Glories and Its Perils.'

Hutchins Freed From Charge Of Embezzlement

W. E. Hutchins, who was arrested a short time ago on a charge of embezzlement and taken to Los Angeles, returned to Richmond yesterday. When the matter came up in court, Hutchins was promptly discharged, it being held that there was no foundation for the charge. It seems that the charge grew out of an automobile transaction, where part payment was made, a note given for the balance, and a bill of sale issued.

Family matters entered into the matter, it is said to a great extent. Hutchins will re-open his butcher market on San Pablo avenue near Barrett.

LAST SAD RITES SAID

Last rites for Charles Edward Stahl, former foreman at the Standard Oil, who passed away at the family home, 735 Clinton avenue, last Wednesday, were held yesterday from the Wilson and Kratzer funeral parlors. Interment was in Sunset View cemetery.

OUTING AT PISCADERO

Dr. and Mrs. T. A. Guthrie have left for their country place near Pescadero where they will spend the month of July.

CITY ASSESSOR COMPLETES NEW ASSESSMENTS OF CITY RICHMOND

Both the county assessment rolls and the city assessment rolls have been completed and will be turned over to the supervisors and the city council next Monday.

The county assessment roll will total \$33,404, an increase of about \$1,500,000 over last year, and of this increase in the entire county \$1,000,000 of it is from Richmond.

The assessment roll of the city of Richmond as completed by city assessor J. O. Ford, totals \$26,678,345, or a gain of \$33,965 over 1922. Last year's assessment roll totalled \$25,739,965. The assessment roll is made up of the following divisions:

Real estate \$11,750,420
Improvements 9,318,570
Personal property 5,600,955
Solvent credits 4,200

The value of real estate in the city is \$20,000 less than that of last year, most of the gain being made on improvements, and that from the industries of Richmond.

Exemptions granted war veterans under the law amount to \$293,905 this year, and they are increasing at the rate of \$50,000 every twelve months.

Architects Club Members Guests Of Porcelain Co

A delegation of approximately 75 members of the Architects club of San Francisco were shown through the three large plants of the Pacific Sanitary Manufacturing company here, and were taken on a tour of the city yesterday under the direction of W. A. Potter, superintendent of the company. The visitors dined at noon at Martins Grill as guests of the company.

They were shown details of the manufacture of bathtubs, washbowls, lavatories and other articles that are made here in large quantities, from mold to the pouring of the hot metal, and the final finishing touches including the enameling and baking in electrical ovens.

These visitors are the men who specify the kind of bathroom fixtures that go into buildings to be erected, and showing them the process of manufacture here in Richmond is the best of advertisement.

Christian Church To Have Special Music This Eve

The Vocallians, local chorus of 24 male voices, will render special music during the evening services of the First Christian church tonight. The program will start at 7:45 and will include solo, quartette and chorus numbers, a special feature being vocal selections by Lail Johnson. The public is invited to attend.

IS ENTERTAINING FRIENDS

Mrs. K. A. Cole, 663 Thirtieth street, has as her guest for a few days, Miss Rose Carpenter of Santa Rosa.

CITY BEGINNING TO DRESS UP FOR CELEBRATION ON FOURTH OF JULY

Detailed plans for Richmond's monster Fourth of July celebration were taken up last night at a semi-final meeting of the executive committee in the Chamber of Commerce rooms, general chairman Wallace Snellgrove presiding.

Sub committees reported great progress and with everything prepared for as it is, it is anticipated that everything will go off without a hitch.

Ten year old Edith Teese, daughter of Mr. and Mrs. S. N. Teese of 142 Fifth street is to recite the Declaration of Independence from memory on the morning of July Fourth at the patriotic exercises held at the Tenth street band stand, it was decided last night.

Little Miss Teese appeared before the committee and recited the famous words in such a creditable manner that the committee felt not the least concern in giving her the honor though she had no competition. She is also to be awarded a ten-dollar prize.

It was announced at the meeting three army officers, Captain Charles Sullivan, Lieutenant Mears and Lieutenant Barnum were to act as judges in the competitive drills. They were selected especially for this position from the officers at Fort MacDowell by Major Terry, G. 3 A. C. of S., Ninth Corps Area.

Representatives were present from the Princeton Knitting Mills, the Portuguese order S. P. R. S. I. and the De Molay. The knitting mills plans to be represented by a float, as does the De Molay. The S. P. R. S. I. expects to have over a hundred members in the line of march. The Union Oil company has sent word in that it will have a feature of special nature in the parade.

The final meeting of the committee will be held tomorrow night in Richmond hall at 8 o'clock, and all details will be finished up then. An invitation is extended by the committee to all organizations interested in the affair to be present as it will be an open meeting. All sub committee chairmen are asked to be present.

The spirit of Fourth of July is beginning to bubble up, and evidence of the monster celebration is materializing. Work on booths started under full steam yesterday, and the framework for a number of them is up.

Store windows are taking on gala colors and tomorrow there will be activity all up and down the avenue making things ready for the big event.

The locations of future concessions can be noted from the framework along the avenue, there being four started already on the vacant lots about the T. and D. theater. Others are strung out in various places, the great majority being from Eleventh to Sixth street.

The grounds at the Junior high school where the sports are to be held, have been nicely rolled and are in good shape.

WILL VISIT YOSEMITE VALLEY

Mr. and Mrs. C. Jardin and daughter Nida, and Mr. and Mrs. J. Schilling plan to leave today for Yosemite Valley.

Over 300 Inspect Home Electrical On Opening Day

The opening yesterday of the "Home Electrical" in the Rheem avenue district by the Appraisal Sales Corporation and the Miner company, was a big success. All day long the representatives of the two companies were kept busy showing the visitors the many attractive features of the house, and what conveniences for the housewife could be placed in a home.

Tab was kept on the number who visited the new place, and it tallied up over 300, and it is anticipated that nearly 1,000 will visit the attractive house today.

Grant Miner, of the Miner company in speaking of the opening last evening said they were more than pleased with the reception given the opening by the general public, and said that they had arranged for additional representatives, so that all of the visitors today could be taken care of without difficulty.

New Officers of Rod & Gun Club Elected Friday

At the meeting of the Rod and Gun Club of the Standard Oil company held Friday night, H. E. Aine was again elected as president. The other officers chosen were Joe W. Dietrich, first vice president; Lou Hall, second vice president; H. M. Flint, secretary-treasurer; M. R. Lovett, executive officer.

As secretary of the rifle club, P. A. Transue was elected. The next meeting of the Rod and Gun Club will be held July 20th at which time there will be a smoker, feed and an entertaining program.

Chiropractor Hit By Decision Of Appellate Court

SACRAMENTO, June 30.—The third district court of appeal today affirmed the conviction by the Tulare County Superior Court of J. E. Willis, a chiropractor, charged with practicing medicine without a license from the state board of medical examiners.

Willis was convicted before the passage at the last election of a law recognizing the chiropractic system and creating a special board to govern the profession.

More Building Permits Issued

Building permits for two one-story houses and to raise two houses were issued from the office of the building inspector yesterday. R. L. Conley was issued a permit to construct a one story dwelling on Twenty-third street between Visalla and Coalina, cost \$2500, the Miner company contractors; J. Cosazzo, a permit to construct a one story house on Key boulevard between McBray and Glenn, cost \$2000; D. Drake to raise a house on Fifty-fifth street and Stockton, cost \$150; Mike Vainack, to raise and put a foundation under a house on Potrero between Fourteenth and Fifteenth, cost \$200.

Sacramento—Site selected for new civic auditorium.

CROCKETT MAN SAWS BARS AND ESCAPES FROM COUNTY JAIL

MARTINEZ, June 30.—Stanley Kalmaski, who escaped from the county jail here by sawing the bars of a window is still at large in spite of a state-wide hunt by the police. Kalmaski, who was arrested for the theft of an automobile from J. Peters of Crockett, made his escape by cutting the bars of a window in the midday section of jail, where he had been confined because of the crowded conditions. There were nineteen other prisoners in this section at the time, but they refused to join in the jail break.

Jail attaches discovered the escape of Kalmaski early this morning and a thorough probe was immediately started. Police and sheriff's throughout this part of the state were then notified and a search for the escaped man started.

Kalmaski is described as being 34 years of age, five feet eight inches in height, weighs 175 pounds, brown hair, light brown eyes, fair complexion, thin face and prominent nose. His preliminary examination on a felony charge was held recently and he was bound over to the Superior Court.

Care Is Urged In Sending In Fire Alarms

A request that persons sending in telephone alarms of grass fires state that they are grass fires has been made by Fire Chief Roy LeMoine. Yesterday afternoon an alarm was turned in, there being no mention made of the seriousness of it. No chances were taken and three pieces of heavy apparatus were sent out when a chemical could have done the work. This is wasteful wear and tear on the apparatus, and also other alarms are liable to come in while it is out.

Who Wrote the First Books?

The earliest known book is "The Book of the Dead," written over 3,000 years B. C. It was written at the time of the building of the Great Pyramid (2733-2686 B. C.) and contains invocations to the deities, psalms, etc.

Advance Styles Are Being Shown At Eisenberg's

Dan Eisenberg's popular shoe merchant has many timely offerings in ladies' and men's shoes that speak of thrift in large letters. All that is new in footwear can be found at this establishment in every conceivable variety.

Several of the lines are exclusive and cannot be purchased anywhere in Richmond except at this fast growing store. The courtesy that this firm extends to its patrons is worthy of comment. The stock carried by this firm is far in advance of most places.

Eisenberg makes it a point to get all the new styles just as soon as the factory turns them out. Many of the shoes at this store are in many instances advance styles.

Summing the establishment up generally, it is an ideal footwear establishment where every whim of fashion can be supplied.

CRIME ON MOTOR CAUSE OF DECAY

Greasy Accumulations Injurious to Various Connections and Also to Insulation.

The motorcar's spring cleaning should not stop with the body, top and cushions. An engine and chassis covered with grease and dirt is a costly encouragement to delaying simple adjustments which will save money in repairs.

Clean the engine, springs, transmission housing and other parts which accumulate sticky grime with kerosene, to which some gasoline may be added. Use a wooden backed scrubbing brush with no metal on it. Metal may touch electric terminals and cause a spark which will start a fire. A much better job will result if the drip pan is removed while the engine is cleaned.

Cleaning Saves the Engine.

In addition to looking better and being easier to repair, a clean engine's hose connections, electric insulation and gauges will not deteriorate nearly so quickly.

With the springs cleaned, oiling suggests itself. Be sure the grease cups on the springs are full and screwed down so there will be pressure. That is not enough to save a rusted spring, however. Jack up the chassis and apply lubricant with a paint brush or a spray.

If the leaves of springs are rusted together they usually may be pried apart with a screwdriver while the car is jacked up. Repair men diagnose as a "frozen" spring a condition in which all leaves are rusted into what appears to be a solid mass. Soak the "frozen" spring in kerosene and try the screwdriver again next day.

Take Balky Spring Apart.

If the spring still balks, the best way is to remove it, take it apart, clean the leaves with kerosene, lubricate them with graphite and grease and reassemble them.

Spring covers of leather and metal, oil retaining cups and high pressure lubricating systems are among recent improvements which simplify care of springs. The various covers keep out dirt and keep in lubricants so that springs rarely need attention. High pressure devices range in design from those in which a screw pressure exerts terrific force to a handy affair like a pistol which "shoots" grease when the trigger is pulled.

DEVICE HANDY FOR LUGGAGE

Two Strips of Iron Arranged on Running Board of Car Afford Storage Place.

The illustration shows a novel attachment devised by a motorist for carrying luggage on the running board of his car.

Two pieces of heavy sheet iron, slightly narrower than the running board, are hinged to each other, and one piece hinged to the outer edge of the running board, as shown. Two

Two Strips of Sheet Iron, Arranged on the Running Board, Provide an Excellent Attachment for Carrying Luggage, and Can Be Folded Down When Not in Use.

Leather straps, attached as shown, are used to hold these pieces tightly over the luggage so that it will not be jolted out on rough roads. A piece of linoleum is glued to the outer side of the strip hinged to the running board, so that when the attachment is folded, the linoleum is uppermost. Popular Mechanics Magazine.

Point Happenings

COMMITTEE NAMED FOR POINT MASONRY DANCE PARTY

Louis Moore has been named chairman of the general committee in charge of the Vacation Dance to be given by Point Lodge of Masons on Saturday evening, July 14, in Point Masonic Temple. He will be assisted by Carl Peterson, John Battaya and N. Bellisario.

It is planned to make the party one of the most brilliant social functions of the season, and the public is extended a cordial invitation to attend. Music for the dancing will be furnished by Keith Hoover's well known orchestra.

FUNERAL SERVICES HELD FOR LATE MRS. GORMAN

Last rites for the late Mrs. Elizabeth Gorman, well known Richmond woman, who passed away on Thursday evening, were held yesterday morning from St. Mark's Catholic church, where requiem high mass was said. Bert Curry was in charge of the funeral arrangements.

WILL SPEND TWO WEEKS VACATION AT CAZADERO

Mr. and Mrs. J. E. George, 49 Belvedere avenue, accompanied by Lester and Chester Stanley, will leave on Thursday of this week for Cazadero, where they will spend a two weeks' vacation.

MRS. CHILDS AND CHILDREN TO VACATION AT MONTE RIO

Mrs. A. Childs and sons, Bert and Fred, and daughter, Vera, of 220 Washington avenue, left yesterday for Monte Rio on the Russian river where they will enjoy a short vacation.

MRS. HESS AND SON ARE ENJOYING SHORT VACATION

Mrs. Fred Hess and son, Walter, of 323 Washington avenue, are enjoying a vacation at Guerneville on the Russian River. They plan to return home late this week.

Mystery Death Of Neb. Heiress Will Be Probed

LINCOLN, Neb., June 30.—Following the verdict late yesterday of the coroner's jury that Miss Anna Stevens came to her death through "causes unknown," Max Towle, assistant county attorney, stated this morning he would withhold further action pending the result of a pathological examination by the state bacteriologist of the vital organs submitted by Dr. A. R. Des Jardien. Dr. Des Jardien was the operating surgeon under whose care Miss Stevens died and is chief beneficiary and sole administrator of her \$100,000 estate.

Yesterday conflicting testimony as to the condition of Miss Stevens' vital organs was given by Dr. Des Jardien and Dr. A. L. Smith, both producing distinct sets of lungs, kidneys, liver and small intestines which each said he had taken from the dead woman's body.

Dewey C. Kepler, 10 Martina avenue, a son, Dr. M. Keser was the attending physician.

Squabble Results Over Payment of Bandit's Reward

WOODLAND, June 30.—Three Yolo county men who captured the bandits who robbed the Citizens' Bank of Winters in April will not get an additional \$500 reward for their work it was announced today by J. E. Sackett, president of the bank. The three men have already received \$200 reward.

The captors of the bandits are Lee Sinkey, Glenn Atterbury and Adolph Silberstein.

On the day after the robbery and before the bandits were caught, an Eastern burglar alarm company wired an offer of \$500 for the capture but later, according to Sackett, the company repudiated the offer, saying it did not make awards for the capture of daylight burglars.

Sackett said the bank will make a further effort to secure the \$500 reward, and if it is received it will be given to Sinkey, Atterbury and Silberstein.

Common Sense
In Car Buying Means Buying
THE STAR

Naturally when you consider purchasing an Automobile the first thing that concerns you is how much shall I pay for it.

The second thought that concerns you is what kind of a car shall I buy.

The Star answers both questions. First of all the STAR gives you everything that any other car can give regardless of the price. Then, too, there is less grief—less money expended for upkeep. The STAR will give you the mileage any other car will give and operation is more economical.

The price is so low that you will be surprised—in fact the STAR is the cheapest priced car in America for its class. This is your opportunity to

Title Men Will Hold Convention In The Yosemite

President Donzel Stoney of the California Land Title Association has issued the call for the 16th annual convention of the association at Yosemite Valley Friday and Saturday, August 3 and 4.

In honor of the occasion, many title men are planning to meet at Merced on August 1st, and drive in as a caravan. More than 50 of the title men from all over the state have signified their intentions of making this trip over the most scenic road in all the west.

Glenn D. Willman, editor of California Real Estate, who has conducted a questionnaire for President Stoney among the title men, has received sufficient replies to indicate the attendance of the largest number of California title men that ever met for conference.

The list includes title delegates from Redding to San Diego, and from the San Joaquin Valley alone, there will be sixteen representatives of the Security Title Insurance & Guarantee company, according to announcement by President Glenn C. Shaefer of Fresno.

The Union Title company of San Diego is sending a delegation, and from San Francisco will be five machine loads from the California Pacific Title Insurance company of San Francisco and Redwood City.

From Alameda county all three companies will be represented, while from Los Angeles the delegation of at least fifteen will be headed by O. J. Waggoner, Vice President of the association, who is also head of the California Title Insurance company.

Sheffield Steel Supreme. Sheffield is still credited with making the best steel in the world. Its virtues are attributed partly to the secrets known only to the manufacturers, and partly to the water used in tempering it.

Coral Aids in Building. The fossil coral of the Fiji Islands is the best building stone in the world. When first cut it is almost as soft as cheese, but it solidifies in the air until it is almost as hard as granite.

Bank Is Closed And Bankers Are In Hasty Flight

LOS ANGELES, June 30.—The first official act of State Superintendent of Banks John Franklin Johnson, heretofore to determine the condition of the Farmers and Merchants' Bank of China, was to instruct directors and stockholders of the institution to meet Thursday in their city, where he will subject them to a stiff examination with a view to their raising funds.

The commissioner declared the bank officials will be given every opportunity to make good the deficit occasioned by a stock fraud perpetrated by six brokers who recently operated in this vicinity. Johnson yesterday ordered the bank to close its doors.

The brokers are now fugitives from justice.

Another bank in the southern portion of the state also was on the verge of being ruined by the gang of swindlers, but Superintendent Johnson said today his forces detected the trick and re-established the bank on a firm footing several weeks ago.

'Canned Heat' Is New Concoction Now Being Sold

NEW YORK, June 30.—"Bowery smoke," a forty-mule power drink consumed in some parts of New York, is but a mild stimulant when compared to the drink called "canned heat," used in Pueblo, Colo.

That decision was rendered yesterday by Chief of Police J. Arthur Grady of Pueblo. He had a chance to observe the effects of "Bowery smoke" by sitting on the bench with Magistrate Douras in the Essex Market Court.

Chief Grady said the chief difference between the two drinks is that "Bowery smoke" drinkers seem to have quite a lot of life left, while "canned heat" addicts were usually pretty nearly out when they reached court.

He says "canned heat" is made from solidified alcohol. "Bowery smoke" is said to be derived from denatured alcohol.

Captive Beasts Fade. To capture an elephant that is a "perfect 36" and a tiger with a natural complexion, the American Museum of Natural History has sent an expedition into India. Officials of that institution say that animals kept in captivity soon lose the coloration of skin and fur which they have in the wild state. Their figures, or, as the scientists put it, "their skeletal conformation," also become so changed that they represent their kind but poorly.

Cement for China. Mix a cupful of milk with a cupful of vinegar, separate the curd from the whey and mix the whey with the whites of five eggs, beating the whole together thoroughly. When well mixed, sift in a little quicklime and stir until it is of the consistency of thick paste. With this broken china, glass and cracks of all kinds may be mended. It dries quickly and resists the action of water and heat.

"Modern Athens." "Modern Athens" is a name often given to Boston, Mass., a city remarkable for the high intellectual character of its citizens, and for its many excellent literary, scientific and educational institutions and publications.

Forerunners. Already the yellow acornite lifts a smiling face to welcome me. The snowdrop, sweet forerunner of the blooms of spring, is even now abroad announcing its silent faith of a coming flowered company.—J. E. Ward.

CREDIT

—Credit is the bridge across which American business is moving on to prosperity. Most homes and most businesses are financed at least partly through credit—why not buy your home furnishings the same way? Our liberal credit terms enable you to get the benefit of present low prices—and to enjoy that better home while you are paying for it on easy terms.

ENORMOUS THREE-DAY

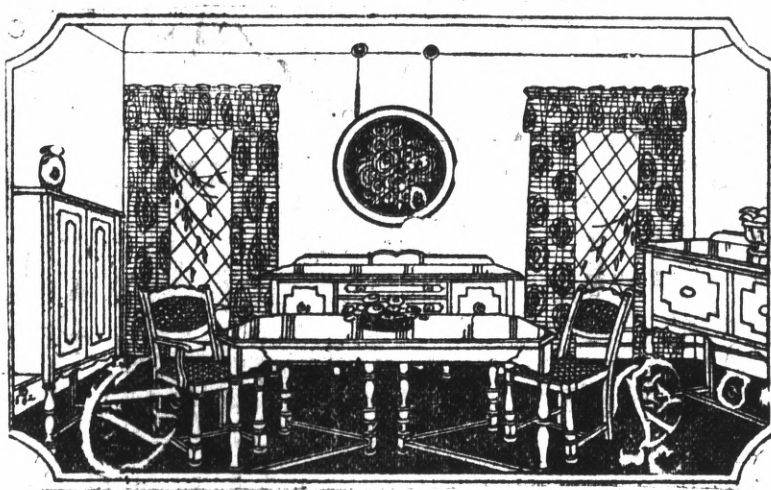

Unmatchable Values in Furniture Floor C

Once more our foresight in buying heavily before WHOLESALE prices rose makes possible many startling savings for our customers. Many of the values shown we sell—at far less than today's market prices. Young couples especially, will find this great sale the chance they have been looking for to either furnish the new home or to furnish many new friends for this store and to renew our acquaintance with our old customers. To do this, we have cut prices down

Buy a Bedroom Suite Now

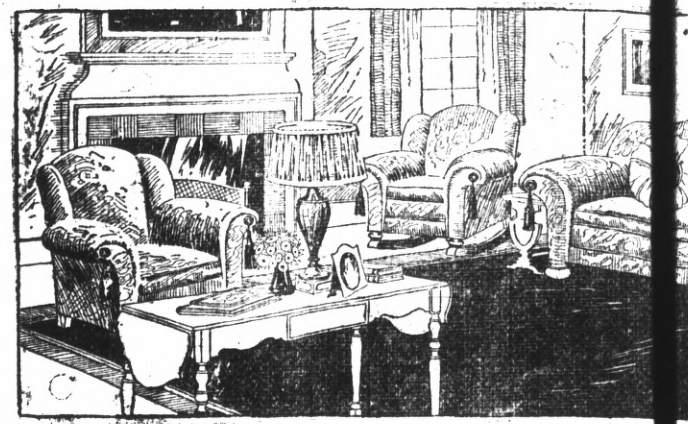

You will find our marvelous display of bedroom suites distinguished by a rare combination of superior quality and remarkably low prices. Our foresight in placing orders for this furniture before prices rose enables us to save you many dollars in the purchase of any bedroom suite. Well designed suites for the bedroom are priced as low as **\$80.00**

Dining Suites of Exquisite Design

The great values in dining suites will bring many new friends to the store during the sale. You'll be amazed when you find that substantially constructed dining room suites in attractive designs and finishes can be obtained now at prices which are astonishingly low! All the newest styles in every finish. Prices on dining suites of marvelous quality as low as **\$85.00**

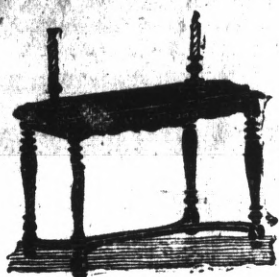

Living Room Suites

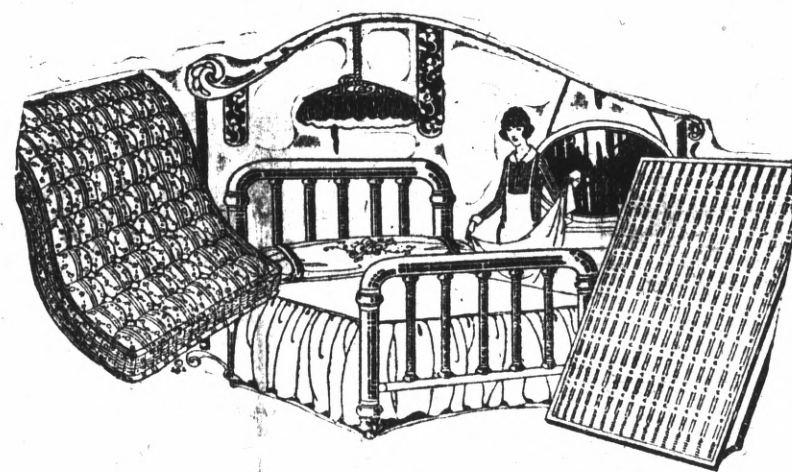

Selecting a new living room suite is indeed a pleasure. There is such a wide assortment, featuring all that is new. Prices, too, are most alluring, for surely the limit has been reached when we are offering the very new designs from **\$150.00**

Library Tables

Now **\$16.50 Up**

An unusually fortunate purchase of these well designed library tables makes it possible for us to pass the big saving on to you. They're the type of furniture which will add distinction to any living room or library—and you will agree when you see them that they're a startling value at this low price.

Bed Spring and Mattress Outfits

This great value will make many new friends for us. At a sensational low price you can buy a complete bed outfit, including a handsome steel bed finished in white enamel, with continuous posts—a mattress built for comfort, and a well made resilient spring. This sale of complete outfits will be good news to homes everywhere as they're only **\$29.50**

Fine Leather Rockers

At **\$24.75 Up**

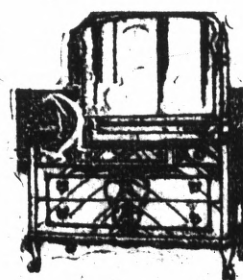

All those who intend to better their homes this month will find these rockers an exceptional value. They are well constructed in every detail and attractively upholstered to give years of service. Coil spring construction, heavy roll arms and wing backs insure supreme comfort.

Dressers Slashed

Dressers of this excellent quality will do much to beautify any bedroom—and our tremendously reduced prices offer a great opportunity for big savings this month. Choose from a variety of beautiful designs and all finishes. Make your selection early and save.

\$18.50 Up

Extra Chair

—The most wonderful chair ever offered. Covered in silk with loose cushions. select yours and pick from.

Day Couches Reduced

A single easy motion opens one of the couch beds into a full sized bed. They're complete with a comfortable mattress and resilient springs, and offer sensational value at this strikingly low price. Be sure to see them, as the value may never be repeated.

Now **\$52.50**

Wedgewood Gas Ranges

A sensational saving for the home-maker. These are gas ovens with an oven that bakes perfectly and are extremely economical of operation. Full satisfaction guaranteed. Come in and see them at

California Gobs See Their Ship In Gibson Film

"Alta Boy, Hoot! You're a 'Four O'!"

So shouted some 1500 sailors and officers aboard the superdreadnought California, at San Pedro, the night before leaving for the Pacific Fleet's Oriental Cruise. The reason was "Out of Luck," Hoot Gibson's navy picture, filmed aboard the big flagship of the fleet, with Admiral Eberle, and the whole ship's staff acting as advisers.

Edward Sedgwick, the director, promised the boys they'd see the picture as soon as ready, and then came news of the Oriental cruise. Sedgwick sought the cutting room and laid his problem before them, and the cutting room worked fast. They put temporary titles into the picture, rushed the editing, and succeeded in getting it ready the night before the flotilla sailed.

The film was hurried to San Pedro by automobile, and an improvised screen erected on deck.

Captain L. A. Bostwick, of the vessel, and Lieutenant Tom Berrien, who acted as naval technical adviser, watched the picture with keen interest. They declare it absolutely true to navy detail. The gobs declare it a "Four O"—that's the highest rating a picture can have aboard the flagship.

Pusing Work On Big Bridge

VALLEJO, June 30.—While disappointed promoters whose applications for franchise to erect and maintain a toll bridge across Carquinez Straits have been denied continue to talk about a bridge across Carquinez Straits the Rodeo Vallejo Ferry company franchise holder is busily engaged in the actual construction of the largest bridge ever planned for California.

With a pile driver working on each side, a diamond drill at two pier sites, two tugs plying between the various crews and preparations being completed for the advent of the steam shovel in a few days the site of the bridge is taking on the appearance of business like activity.

The bridge itself is now being fabricated in eastern steel mills and the gross weight of the steel to be used in the construction of the bridge amounts to twenty-five million six hundred thousand pounds.

The bridge will be two feet higher than the Brooklyn bridge, having a clearance of 135 feet above high water. The truss height at the tower piers is 150 feet measured from the floor level.

The main channel depths in Carquinez Strait, below high water approach 100 feet to rock foundation, the height therefore from bed rock to the highest points on the bridge trusses is about 400 feet or equal to a thirty-three story building.

The financing of the bridge has been accomplished and work is being rushed as fast as is compatible with absolute certainty that each preliminary step is scientifically correct, according to Daniel McFarland, resident engineer on the job.

181 Will Enter High School At Beginning of Term

Special Rates Salinas Rodeo By S. P. Railroad

Thousands of Californians are expected to attend the Salinas Rodeo and Big Week at Salinas, July 18 to 22.

This was announced yesterday by Chas. S. Fee, passenger traffic manager for the Southern Pacific company, who stated that reduced passenger fares would be put into effect for the celebration.

The reduced rate tickets which consist of one and one-half fare for the round trip, will be sold from all stations on the company's lines between San Francisco, Oakland, Sacramento and Los Angeles including branch lines.

Tickets will go on sale July 16 and have a final return limit of July 23, Fee stated.

TO RESIDE IN PENNSYLVANIA

Mrs. Henry Winkler, 444 Fifth street, has left for her former home in Pennsylvania.

Randsbury—The famous Kelley mine here set a new high production record at \$284,241 in April.

Grass Valley—50 cents per shift effective July 1st.

Albany—P. G. & E. to spend \$30,000 in Northbrae district.

Travel to Crater Lake This Year To Break Records

With the opening date officially set for July 1, travel to Crater Lake National Park during the 1923 season is expected to break all records.

In announcing this yesterday, C. S. Fee, passenger traffic manager for the Southern Pacific company, stated that thousands of eastern tourists will visit the lake this summer as a result of the widespread advertising given this beautiful park by the railroad.

Crater Lake National Park is fast becoming one of the show places of the west, Fee stated. Occupying the crater of an extinct volcano, Crater Lake is one of the most beautiful bodies of water in the world.

The park is located in Oregon 60 miles north of the California line on the Southern Pacific's "Shasta Route" between San Francisco and Portland. It is reached by auto stage from Medford, Oregon.

Arcata—Cuylergale Mining Co., ca- Clatsburg—Over 38000 acres of pitized \$1,000,000 to develop local Hokland Tract land planted to sugar beets.

Special Bargain in GOLD STOCK

Pre-Organization Opportunity

The Wonder Gold Mines, at Alleghany, Sierra County, California, has changed its method from the unit interest way to a stock company, now being incorporated under the laws of the State of California, and under the direction of the State Corporation Department. Articles of incorporation have been drawn, are being filed with the proper authorities, and the stock will soon be ready to issue. Arrangements have been made with the State Department for the issuance of a good, workable permit, as the officers of the Department are personally acquainted with the Alleghany District and consider the Wonder Mines in proven territory.

As provided by law, a pre-organization subscription to the treasury stock is being taken, and those who get in on this will get a real sure-enough bargain for their money, as up to the first \$5000 subscribed the stock is being placed at half price, 12 1-2 cents the share. After this amount has been taken the price immediately goes to twice that figure, 25 cents, and no more will be sold for less. By fall, the management confidently expects the stock will be in demand at half a dollar. The pre-organization list is now being rapidly signed by citizens of Richmond, Grass Valley, Nevada City and Alleghany, and within a month from this time, it will be taken up entirely. This is an opportunity seldom got in this business for the

Wonder Gold Mines Are Right in The Middle Of and Joined By The Richest Gold Producing Gold Mines In America

It is not often that such an assertion can be truthfully made and substantiated, but there seems to be no doubt in the minds of our leading mining men and experts that the Sixteen-To-One and the Tightner Mines, at Alleghany, both of which lie immediately adjoining the Wonder are unexcelled in gold riches anywhere in this country, if indeed they are in the world. In addition to this, is the fact that other very rich mines are either adjoining or immediately adjacent to the Wonder group, such as the Rainbow, the Ireland, the Plumbago, the Sherman, the Oriental and others, all of which have splendid records as gold producers.

A network of gold ore ledges spread out among these mines, and whatever any of them have in the way of riches the Wonder must also have, the only difference being that they are equipped and developed and the Wonder is not as yet, but soon will be, as work along these lines is to be pushed as rapidly as possible.

The mines surrounding the Wonder have produced millions of dollars, and are as rich today as ever. They have made many stockholders rich, and if the Wonder does not do the same, then the predictions of the best mining men in the Alleghany district is at fault, which is not likely. (For corroboration see bulletins issued by the State Mining Department.)

High grade gold ore has already been found on the Wonder ledge, in a small shaft that caved in because it was not timbered, and a development tunnel is now being run to come in under that shaft, and tap the high grade again at depth. This is expected to happen in the course of the next three months. Samples of the ore found in the shaft run approximately \$10,000 per ton in gold.

This pre-organization opportunity will not last more than the next thirty days, at the end of which time the price of the stock doubles and those who are in double their money. The strictest investigation of the mines and the project is invited, and every opportunity will be given every investor to satisfy himself relative to the merit of the mine and the ability and integrity of the management.

Western States Gas & Electric Company

The Home Electrical--

The house shown in the center of this group of
Electrical? It is out of the ordinary. Its build-
ing invitation to the public to inspect it, starting today.

What up-to-date home builders can accomplish, and the conveniences that can be provided for the comfort of the housewife, will be demonstrated by the Miner Company, today and for the next two weeks, in the display of a new 'electrical home' that has just been completed on Lowell street near Twenty Sixth. In what is generally termed the "Rheem Avenue District."

The Miner Company, the contractors, were having the finishing touches placed on the home yesterday, both inside and outside, and the public will be welcome commencing today. It is worth the while of any one street near Twenty Sixth, in what is to pay a visit to the home, and see

the many modern conveniences that have been installed.

The property on which the house was erected, was purchased from the Appraisal and Sales Corporation of which E. B. Bull is the head. The Rheem Avenue district is destined to be one of the highest class residential sections of the city, and a progressive home building campaign has been arranged by the company. Besides the electrical home, the Miner company is erecting two others, and plans have been formulated for the erection of fifty additional in the eastern section of the city, in units of ten.

The new electrical home to which the company invites you to pay a visit, contains six rooms and is built of hollow reinforced concrete walls. There is also a two car garage in connection with the home. The outside has a very attractive appearance, being finished in splendid stucco and brick.

Entering the inside and passing from room to room one feature after another is noted. There are hardwood floors in the halls, living room, dining room and bed rooms and inlaid linoleum in the kitchen, breakfast room and laundry. In the kitchen there are the tile drain and splash boards, which are always dear to a woman's heart.

The general interior of the home is in French gray and Old Ivory, and the kitchen, bathroom and laundry walls and cabinet work are covered with three coats of enamel.

Through the house, the hardware is of the very latest and most expensive design, and there is a special front door latch.

In all of the bedroom doors and

Andrew Nelson, Richmond lumberman, with Mrs. Nelson and their daughter, Mrs. R. W. Timmons, have left for Portland, Oregon, by automobile, and plan to be gone three weeks.

Electrical--Inspect It Today

own in the center of this group of three is the "House
out of the ordinary. Its builders extend a cordial
public to inspect it, starting today.

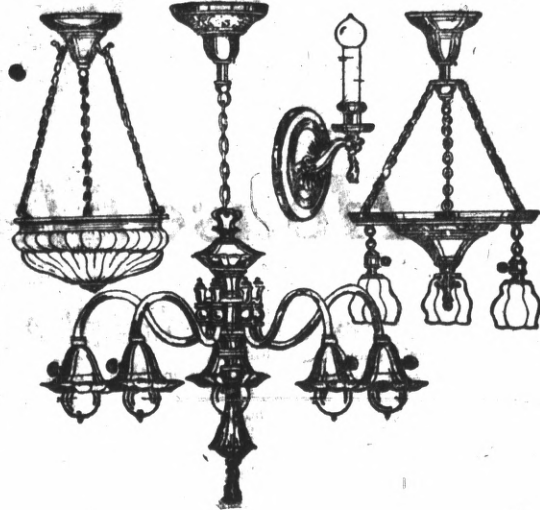

conveniences that reception hall door there are plate
glass mirrors. In the reception hall
is a cedar lined closet. In the bed-
rooms there are large closets, and
each has a large window.
Off of the bathroom is a special
linen closet, a fruit cabinet in the
laundry, and a folding ironing board
in the kitchen, that disappears in
the wall.
The electrical work of the home
was done by the Wells, Dexter, Chit-
wood Electric Company, that has re-
cently opened a store at Twenty-
third and Macdonald, and in the in-
stalling of fixtures, and conveniences,
nothing has been overlooked by the
firm. The lighting fixtures are un-
usually attractive, and of the very
latest design. In addition to the
hanging fixtures in the center of the
ceiling of the rooms, there are
special bracket lamps in the bed-
rooms. Heating plug receptacles for
electric radiators are found in all of
the rooms, and in addition there are

have outlets for connections for
vacuum cleaners, floor lamps, and
all miscellaneous electrical appli-
ances. The improved tumbler type of
switch is used throughout the build-
ing.
In addition there is the electric
range and electric water heater, and
these may so adjusted that any de-
sired degree of heat may be obtained
for any length of time.
The bathroom contains a recessed
porcelain tub, equipped with hot and
cold water, and a shower attachment.
In addition there is the lavatory and
washbowl.
When you inspect the home Sunday,
you will find it all ready for occupa-
ncy, from one end to the other in-
cluding the furniture. This feature
of the home has been supplied by the
Richmond Furniture Company, and
reflects great credit on Harley Carter
the manager of the company.
The lumber and mill work is the
product of the Tilden Lumber com-

pany, a concern which is capable of
turning out the finest of everything
in its line.
The plastering and cement work
was done by Charles H. Brown
of 220 south Twelfth, and Charley
says the work is the best that can
be done.
The electric current for the home,
but for illuminating and cooking and
heating will be supplied by the West-
ern Gas & Electric Company, and
during the demonstration, the cur-
rent that will be used has been
kindly donated by the manager of
the electric company Mr. George N.
Rooker.
The home will delight the heart of
any woman who inspects it, and a
man too, for that matter, and all
of those who have taken a part in
being able to present this finished
product to the people of Richmond,
are deserving of every credit. One
home like this brings another, and
homes are what make a city.

John Solomon, Incognito

by H. Bedford Jones

"What's this—some of paper to the girl, who in surprise. Her eyes set. "Oh! No—I suppose father, as a memento of his trip." "He was in Syria and northern Egypt about fifteen years ago, on business. He was there for nearly a year, and made a good deal of money. I believe that he always intended to return some day, but of course the war broke up all his plans, and then he died the year after the war. He must have kept this because of his funny English."

Fortier glanced up, to perceive the pudgy figure of the steward before them. Solomon touched his cap apologetically.

"Begin your pardon, sir an' miss," he said. "If so be as you wants tea, I'll have all ready, shipshape an' Bristol fashion, whenever you rings."

"Thank you," rejoined Aline. "It's a bit early yet. We'll wait until Mr. Macarty comes."

The girl kept the bit of paper in her fingers. Presently, as though reluctant to sever this link with her past, she slowly tore it into fragments and let the wind carry them over the rail. Fortier had resumed his survey of the documents.

"Your father died suddenly, I understand," he asked presently.

"Yes. Very suddenly. It was heart failure."

"Then, I suppose, you never learned the meaning of this writing?"

Fortier passed her a legal form. On the blank reverse side of this folded paper were written some words in pen-til—evidently a hurried scrawl. It bore an abbreviated date, at sight of which the gray eyes widened.

"Oh! Why, this must have been written just before father died! I never noticed it—"

"Read it," said Fortier. "I don't understand it myself."

Aline read, in puzzled silence:

"Memo. Show Aline stones held in trust. Sep-moon, Queen of Sheba, & Gemini in separate case."

"Why, that is singular!" murmured the girl, frowning a little. "What did he mean by stones held in trust? And Gemini—that means the twins, Castor and Pollux."

Fortier saw the harking figure of Gros Michel turn and dart a seemingly careless look at the speaker. He quietly held out his hand and took the paper.

"There's no telling," he said, inwardly cursing his lack of caution. "Something that he meant to tell you about, evidently. Perhaps Philbrick will know."

"Oh, of course he will!" exclaimed Aline, relieved. "Philbrick knows everything—my father always told him everything. And there's uncle now. Shall we have tea served here, Uncle David?"

Macarty came up, and Fortier put away the papers in his pocket. He attached no importance to this hurried scrawl, yet it might have some meaning. He determined to ask Philbrick about it upon reaching the island.

That evening, Aline retired early, leaving the two men to smoke together. Fortier found his host no less charming than at their first meeting; indeed, Macarty seemed exerting himself to make a favorable impression upon the young attorney.

Fortier smiled, for he could read the other man's mind like a map. Macarty fancied that his guest was a raw youth, easily impressed, who could be twisted around a deft finger without trouble. By his studied flattery, Fortier conveyed the notion that he cherished an immense respect for Macarty's opinions. And Macarty was just shallow enough to know no better.

This little game amused Fortier a good deal, and did no harm.

It was ten o'clock when Fortier retired to his little cubby of a cabin. He paused for a word with Wright, who had the bridge, and learned that, barring trouble, they would reach La-touche in the morning. When he had undressed, he crowded himself into his small but comfortable berth, and was asleep immediately.

He was awakened by the sound of his cabin door slammed violently shut. Fortier sat up, blinking. A glance at his illuminated watch told him that it was almost exactly midnight. Had his door been open. He was certain that he had locked it upon retiring. Had he been mistaken in the sound?

As he sat there, he heard a sudden pound of bare feet on the outside deck. After this, a sharp cry.

"By George, something's up!" thought Fortier, and sprang out of bed.

Throwing on his coat over his pajamas, he glanced out into the passage, then left the room and passed to the deck. There he found the electric lights switched on, and several men standing about a dark object. The mate glanced at him.

"That you, Mr. Wright?" asked Fortier.

"Murder," said the chief officer burst.

"I had turned over the bridge to Mr. Thompson and was going below."

Thompson stared at Solomon. But Thompson's lamped forward, sat up, raised a storm of oaths on his lips. Without hesitation, Wright intervened and struck at him—hit him across the skull with the pistol. The second mate staggered and went down, senseless.

"This is a serious matter, steward," exclaimed Wright sternly. "Can you swear to this evidence in court?"

"If so be I 'ad to, sir." The guileless blue eyes of Solomon looked perturbed and frightened. "I 'opes, sir, as it ain't a-goin' to get Mr. Thompson in trouble!"

Wright did not answer the question. He ordered two of the men to bind Thompson and to carry him forward. Then he looked around.

"This is a b—l of a mess!" he uttered fervently. "Anybody know any cause for this thing?"

There was no response.

"Anybody seen Gros Michel and Mr. Thompson together the last four hours?"

It was Solomon who spoke up.

"They was 'aving a bit of an argument outside the galley door, sir."

"When?" snapped Wright.

"About an hour ago, sir. I was a-layin' some oatmeal in the fireless cooker, sir, and I 'eard them two talkin' werry 'ard at each other."

"That's a fact, sir," spoke up one of the men. "But there wasn't no harm in it. They was arguing about what color shirt was best suited to Michel's complexion."

"That's enough," snapped Wright. "Carry the body forward and get this deck holystoned before daylight."

Fortier, obeying a sudden impulse, leaned over and touched his fingers to the neck of the corpse.

"Steward, fetch some ice water to my cabin, please."

"Werry good, sir," rejoined Solomon.

Fortier went below, switched on the light in his stateroom, and waited. Presently Solomon appeared, bearing a tray.

"Set it down," ordered Fortier. "Shut the door. Now, look here!"

"That man," said Fortier, "was not murdered by the knife. He was killed by being hit a terrific blow at the base of the skull, Solomon. What do you know about it?"

"Me, sir? I knows nothing and I says nothing, just like that."

The blue eyes were very wide and guileless; the rotned face was entirely blank.

"Confound you!" exclaimed Fortier. "I don't know what to do. I owe you a good turn, but I'm cursed if I'll compound murder! And I don't believe you're half the simpleton you look, Solomon. Where's that knife of yours—the one with the lead haft?"

"Why, sir, I lost that 'ere knife today. Lost it over the side, sir."

"After it struck Gros Michel, it went blank."

Solomon made no response, but I told the steward I lost the knife—stood in placid silence.

"See here!" exclaimed Fortier again. "I think your testimony is a mass of lies. Why on earth would you swear an innocent man into the jail?"

"Here he is," said somebody, noose?"

Solomon chuckled. "Me testimony Solomon was pushed forward. An don't count, sir, until it's took down ulster was flung over his night attire, in court, just like that! And if so be and he blinked stupidly from the body as I changes my mind, why, Mr. Wright, on the deck to the keen scrutiny of Thompson 'e won't be convicted."

"Oh!" Fortier gasped at the utter brusquely. "Did Mr. Thompson actually confess that you murdered—"

"Not a word, Mr. Thompson! Now, To Be Continued

Big Regatta to Draw Oarsmen Of Entire Coast

July Fourth will be a "big day" in western rowing circles. Thousands of rowing enthusiasts from all parts of the Pacific coast are expected to attend the annual regatta of the Pacific Association of Amateur Oarsmen at Coronado Tent City next Tuesday, July 4.

The meet will be held under the auspices of the San Diego Rowing Club, and entries from all prominent rowing clubs of California will participate in the regatta.

San Francisco will be represented by the South End, the Ariel and the Dolphin clubs. The South End club will have entries in all six races; the Ariel club will be represented in the Junior and four-oared races only, while the Dolphin club will send down entries for the Junior and Intermediate class singles skiff events.

Milton Epstein, president of the P. A. A. O., is working out the details of the big aquatic meet which promises to be one of the most important events of its kind ever held in California.

Henry C. Peterson of San Francisco, one time world's champion singles sculler and prominent rowing fan, has been selected to referee the meet. Claus Spreckles of San Diego was named honorary president of the regatta and E. A. Swanson, manager of Tent City, honorary marshal.

Musicians Aid Historical Review Set for July 2

Leading musicians of Southern California have aided officials of the American Historical Review and Motion Picture Industrial Exposition, to be held at Los Angeles July 2 to August 4, in arranging most attractive and elaborate musical programs.

Daily recitals on two huge pipe

organs installed by the Rudolph Wurlitzer company of Los Angeles street will be one of the principal attractions. Noted organists will be at the organs in the Church Around the Corner and Women's Auditorium.

Vested Choirs, vocalists of international renown, nationally known instrumental soloists and others will be heard in the recitals. Services and programs are to be featured by selections appropriate to the general theme of the exposition setting and Latin-American airs will be rendered by representatives from the picturesque little republics, and students studying with professors from those countries.

The Wurlitzer organs, according to M. M. Stern, representative of the concern furnishing the instruments, will add a unique touch to the exposition, as the music will be heard in all parts of the grounds during the recitals. The instruments

are insured for \$70,000 and are said to be the latest and most improved organs on the Pacific coast.

Steel trussed balconies were constructed to accommodate the huge in-

struments in the church and auditorium. The organs contain many innovations in construction.

ARM SUDDENLY PARALYZED

Oakland, April 28, 1923.
One day as I was walking across the floor carrying a bucket of water, I had a paralytic stroke, and my right arm was paralyzed in a second. I was unable to even raise my right hand and my fingers were stiff and seemed to be dead. I remained in this condition for about nine months during which time I consulted several physicians, but none of them could do anything for me.

My husband and I at last determined to consult the FONG WAN HERBALIST, and as a result I began drinking the tea. During the first few weeks there were signs of improvement and I could move my fingers; now after ten weeks I am fully recovered. I can even sweep and scrub the floors. No one can guess how happy I am. My address may be had at the Fong Wan Herb Office.

Kratzer Receives Eight Carloads of Buicks in June

Yesterday two more carloads of Buick automobiles were unloaded by C. C. Kratzer, local dealer making a total of four car loads received during the week. One car load was unloaded yesterday and another last Thursday.

Kratzer has received eight carloads of Buick automobiles during the month of June. By bringing to Richmond 36 Buicks during the month either by shipment or driving in from San Francisco Kratzer has set the record for delivery of Buicks in Contra Costa county.

POLICE CHIEF GIVES SOUND SAFETY RULES

Head of Pennsylvania Troopers
Promulgates Fifteen Tips to
Reduce Accidents.

Major Lynn G. Adams, superintendent of the Pennsylvania state police force, recently promulgated the following simple rules which, he said, if observed by all motorists, would reduce the number of accidents on the highways 95 per cent. The rules are as follows:

1. Read the automobile laws of your state carefully.
2. Never travel at a high rate of speed over a road with which you are unfamiliar.
3. Never drive, at any time, on the wrong side of the highway.
4. Heed warning signs.
5. Never pass, or attempt to pass, a car going in the same direction at the crest of a hill or on a curve.
6. Never step your car just over the brow of a hill or just around a curve.
7. Never follow a car traveling at a high rate of speed at less distance than 50 yards.
8. If you wish to pass another car going in your direction choose a long, straight stretch of road.
9. When you are traveling at a chosen rate of speed don't "speed up" because someone attempts to pass you.
10. Make careful and frequent inspections and tests of your brakes.
11. Never use bulbs of higher candlepower than those prescribed by law for your lenses.
12. Inspect your tail light frequently.
13. This light marks the position of your car for the following driver, who may be facing light of an oncoming automobile.
14. Remember that the taking of a human life by doing a lawful act in an unlawful manner is involuntary manslaughter, a crime punishable by a prison sentence.
15. Remember that every time you "take a chance" you are gambling with the lives of other people as the "stakes."
15. "Safety First, Last and Always."

GET AWAY FROM MUD SPLASH

When Machines Are Close Together
Dirt Is Not Likely to Strike
as High as Door.

When trying to avoid getting splashed with mud most drivers will get as far away from a passing car as possible. This is just the reverse of what one ought to do to avoid such nuisance. When the cars are ten feet or so apart any mud that is splashed is sure to strike the body of the other car, whereas if the machines are closer together, say three feet apart, mud that is splashed will only strike the wheels and the under sides of the fenders. What mud would ordinarily splash on the doors is much more likely to be caught under the running board when the cars pass closer together.

AUTOMOBILE NEWS

Castor oil or neatfoot oil is best for softening a leather shoe clutch.

To keep wheels from spinning when driving through mud, use added weight on the rear wheels.

Leaving the car in gear when parking on a hill is not sufficient protection against its coasting away.

Pure rain water is the best that can be used in the cooling system. This is because it is free from mineral substances.

The state of New Jersey has a law making the use of rear view mirrors compulsory on passenger cars and motor trucks.

If copper asbestos gaskets seem too expensive for you, make them out of asbestos card. Then soak them for several hours in linseed oil, after which rub graphite into them.

POLICEMEN LEAVE ON TRIP TO WASHINGTON

Police officers Charles Coridon and James Crozier, with their wives, leave this morning for a two weeks automobile trip through the northern part of the state, Oregon, Washington and possibly British Columbia. The trip will be made by the inland route and the return home will be by the coast route.

'Nobody's Bride' Coming to Star at Macdonald Today

An underworld story that is more story than thrill comes to the Macdonald theatre today as the Universal attraction, "Nobody's Bride," in which Herbert Rawlinson is the star.

Usually an underworld plot is featured by thrills, thrills and more thrills. There are plenty of thrills in "Nobody's Bride," but the general purpose in filming the story was to keep the thrills submerged beneath the enthralling interest of watching two women in love with one man and the events which determine which he will marry. The plot places one woman in the world of crime and the other in the world of high society, while the man is simply a "bum," restored to the full rights of manhood by the encouraging hand of one of the women.

"Nobody's Bride," is said to have many elements which are unique in story construction, but the general outline known in advance of its own showing indicates that the story offers real opportunities for characterizations of the "human" variety.

Opposite Rawlinson two of the screen's prettiest actresses will be seen. Alice Lake, a star in her own right, will be seen as the woman of the underworld.

You Get a Real Car When You Buy 'Star' Auto

Kirkpatrick, of Kirkpatrick & Wood says the Star automobile represents more real car for the money than any car in America. And the purchase of this car represents logic and common sense.

Kirkpatrick says in part: "The Star car is always ready and willing, for an hour's drive, a day's run, or a month's tour; always on the go. It is a remarkably fine performer when it's new; and the same fine performer when it's old. And the price, well, it's the cheapest car in America for its class—and it has lots of class."

Redding—R. B. Swayne doubling capacity of plant.

Richvals—P. G. & E. extending local system three miles.
Sebastopol—Labor shortage causing loss of berry growers.

Los Angeles hotel Billmore garage to cost \$575,000.
Placerville to erect \$112,000 high school building.

HOUSE OF
COURTESY

Faithless Husbands Evade Law.
Wife deserters in Nottingham, England, cannot be arrested on Sunday, according to the statutes. As a consequence 90 per cent of the warrants taken out against wife deserters are not served, though a reward is placed on the head of each man. The faithless husbands leave the city on Monday morning and do not return again until Sunday.

Contents of Pound Loaf of Bread.
A pound loaf of bread contains about eight ounces of starch, which serves as fuel for the body; one and a half ounces of protein, which in addition to serving as fuel helps to build and repair the body machinery; one ounce of water and a half ounce of fat, sugar and mineral substances, which latter help to make bones and teeth.

Thoughtlessness of Men.
So many rich men's sons marry women who can't support them in the style in which they were raised.—Duluth Herald.

The New Question.

The question used to be: Can a man love more than one woman at one time? The modern question is: "How can he help it?"—Richmond Times-Di-

Good Fight Card At Point Opera House

The first street ball park will be deserted this afternoon, the Pierce Colored Giants of Oakland being scheduled to play the Fresno Japanese team in the Raisin City. This international battle will be the last traveling game this season for the colored players, who will officially open their season on next Sunday afternoon at the First "street ball park," which they have leased for the next year.

The first street lot will be rechristened next Sunday, and hereafter to the colored folks the park will be known as Pierce Field. The manager of the Giants has mapped out a pretty ambitious schedule of games to be played this season at the local ball orchard and promises to put on some fast baseball for the Richmond fans.

Impressive ceremonies will mark the dedication of the field next Sunday. Mayor E. J. Garrard has agreed to pitch the first ball, while Fire Chief Roy Lemoin will attempt to catch the mayor's throw. Whaley's famous symphony orchestra will supply music during the afternoon.

The ball game for next Sunday will bring together the Giants and the fast nine of the U. S. S. California. The navy club is rated one of the best in the Pacific fleet and is figured to give the Giants some real competition.

One of the largest crowds that ever attended a ball game here is expected to pack the First street lot next Wednesday afternoon when the Standard Oil All Stars hook up with the Concord club of the Three C League in the big feature of the Fourth of July celebration to be staged here.

There will be considerable activity all afternoon, a long program of sports having been arranged. Starting at 1:30, various races for men, women and children will be held before the ball game, which will be followed by a tug of war between the San Francisco police and the local minions of the law. The afternoon will be concluded with a speedy pole climbing contest.

Local interest in the fight shows at the Point Richmond Opera House is expected to be increased with the efforts being made by J. H. Nodderman, fight promoter, to secure Richmond boxers to perform on the card. Several local boys have already announced their intention of going into training and will probably appear in the squared circle in several weeks.

The next fight show will be held on next Friday evening, July 6th, and it is expected that the opera house at the Point will be packed to capacity. The initial show put on last week was a corker and the fight game will go over big if the high caliber of the fights is continued.

Local boxers desiring fights are asked to get in touch with Paddy Ryan, matchmaker and manager, Surf Beach Athletic Club, Alameda. Phone Alameda 4047.

The Junior Elks ball club will hit the road this afternoon, their destination being Crockett and their objective a ball game with the fast Crockett Cubs. Art Muth, star pitcher, will return to the local lineup today and is expected to add great strength to the team. The members of the team will meet at Sixth and Macdonald today at 12:30 o'clock.

With most of the boys recording good time in the sprints and the diving aspirants doing their stuff in championship form, the members of the T. & D. Swimming Club held their initial practice last evening. The members of the club turned out in large numbers and were enthusiastic over prospects of a winning team. Practices will be held every Saturday evening at Piedmont Baths, Oakland.

Gay Vargas is captain of the team, other members being Ralph Lee, Joe Gurney, Chick Renwick and Al Axelsson.

The San Pablo Merchants, having lost their lease on the First street park, will play all their games on the road, today's contest being with the Risdon Bakers of Oakland this afternoon at 2:30 on the diamond at the foot of Eighteenth and Wood, East Oakland. The San Pabloans were badly defeated by the Pittsburgh Cleaners last Sunday but hope to regain some of their lost prestige this afternoon at the expense of the bakery boys.

Practice to develop a crack volleyball team to represent Richmond in a series of matches with a team from Vallejo in the near future, is being held by a number of local business men every Tuesday and

Friday evening in the high school gymnasium. The players are going through their paces with a world of spirit and a smooth-working team seems in the making.

On Friday night a team composed of Dan Cox, Sam Turner, F. E. Leedom and Harley Carter overwhelmed a team made up of Ed Hill, Rev. Frank Baker, R. Cole, Isaac Lester and E. Beedy. Matches between these two teams are played at their bi-weekly meetings.

MRS. PATTISON LAID TO REST
Last tribute to the memory of Mrs. Mary Pattison, mother of Mrs. J. C. Blome of Richmond, who passed away on Thursday, was paid yesterday at funeral services held from the Curry funeral chapel. Many friends of the deceased and the bereaved family gathered to pay their respects.

FOREIGN VETERANS TO MEET TUESDAY EVENING
The regular meeting of the Veterans of Foreign Wars will be held at the city hall on Tuesday evening at 8 o'clock. The session will be very short because of the celebration to be held in Richmond on July 3 and 4.

RICHMOND WOMAN IN ENGLAND
Mr. and Mrs. J. J. Burdon, accompanied by Mrs. Carl Overaa, have arrived safely in England after a pleasant sea voyage, according to word received by friends here. Mrs. Overaa is on her way to the Scandinavian countries.

All members of Honor Post are urged to meet and Second and Macdonald Wednesday morning at 9 o'clock to take part in the parade. Honor Post will have a concession on Macdonald avenue, between Tenth and Eleventh, during the celebration.

The B. B.'s First SALE In 10 Years

After ten (10) very successful years in Richmond we are holding our first SALE. We at all times carry an immense stock, and after ten busy years, we are having a thorough "house cleaning" of our entire stock for Men, Boys and Children. We are shoemakers—we KNOW what good shoes are and ought to be—what they must be inside as well as outside. Consequently you can rely on every pair you buy here to be RIGHT. You will get great service and save big money on every pair bought at this sale.

Hundreds of Pairs of SHOES

AT

Over 500 pairs of shoes for Men, Boys and Children have been taken from regular stock and will be sacrificed for quick selling at only one-half their regular price. These are all the short lines, the discontinued lines and broken sizes in the store. All sizes in some style.

On Our Entire Stock

During this sale, you have your choice of any pair of shoes in our regular stock at 25 percent—ONE-FOURTH—off regular price. This offer includes all shoes, even those that have just arrived. You know we carry such famous makes as ENDICOTT-JOHNSON, CROSSETT, BOSTONIAN, ROBERTS-JOHNSON, EDMONDS FOOT FITTER and STRATFORD. Don't miss this genuine opportunity to save money.

SURPRISE TEST DEMONSTRATES HIGH GRADE OF RICHMOND MILK

The value of efficient and recognized milk inspection under proper supervision was clearly demonstrated as a result of an official surprise milk scoring contest held this week in the local Health Department Laboratory by Dr. M. E. MacDonald, Market Milk Specialist of the State Department of Agriculture in co-operation with Dr. C. R. Blake, City Health Commissioner and his assistants.

The average milk score for Richmond was 92.4 per cent. The milk from all distributors supplying milk in Richmond scored better than 90 per cent which is an excellent uniform rating.

The quality of milk is never improved by neglect or chance. The tendency where the necessary precautions are not constantly observed is always for the quality of the milk to deteriorate rather than to

improve. Milk is affected more by its surroundings and the conditions under which it is produced than probably any other food used by man. The same qualities that make milk a perfect food for the human make it ideal for bacterial life as well, which shows the importance of the supervised milk supply under a recognized milk inspection department.

It has recently been calculated that an addition of 15 years to the average span of life has been made since 1870 of which 3 1/2 years has been added since 1910. Health authorities place a large part of the credit for this remarkable showing on the improvement secured in the sanitary production and handling of milk and other food products, reducing in that way the chances of obtaining possible infections from food sources.

Milk scoring is a part of the service extended by the State Department of Agriculture to all improved milk inspection departments. Only cities and Richmond is one of them, having state approved departments are permitted to grade milk. Where the local health department is allowed to grade its milk supply, it means that the department guarantees to the public that the milk is of the quality as indicated by the grade on the cap and furthermore, that this guarantee is backed up by the State Department of Agriculture. Milk is scored on the basis of Number of Bacteria, 35 per cent;

Flavor and Odor, 15 per cent; Butter Fat content, 15 per cent; Non-fat Solids, 15 per cent; Sediment, 10 per cent; Acidity, 5 per cent; Bottle and Cap, 5 per cent; making a total of 100 per cent.

The results of the contest are as follows:

Pasteurized Milk--Eagle Creamery, 93.3 per cent; Purdy Creamery, 92.2 per cent.

Raw Milk, Grade "A"--Richmond Farm, 94.3 per cent; East Side Dairy, 93.1 per cent; Lomas Dairy, 93 per cent; Bozick Dairy, 92.4 per cent; Poppy Mill Dairy, 90.9 per cent; Corcoran's, 90.8 per cent; Stege Dairy, 90.7 per cent.

Beauty Contest Won by Local Girl

"I hear Mr. and Mrs. Jones are expecting their daughter home from college in a day or so. Of course they are very happy."

"Oh, yes, indeed, Eleanor is coming tomorrow and Mrs. Jones baked a cake or two yesterday and several pies today. She also baked a ham and will do a lot of cooking tomorrow. She is the only daughter, of course, and they are so proud of her."

"I guess she is a very fine girl. Has she won any special honors at school?"

"Goodness, yes! In her studies she ranks very high and, moreover, she won out as queen for the summer festival as the most beautiful and most popular girl in school."

"Really? I haven't seen her for four or five years to tell the truth, but I never in my wildest dreams imagined she would be beautiful. In fact, I thought she was one of the homeliest youngsters I knew."

"I think she surprised everyone. She really is very sweet and charming. Beautiful hair, eyes and complexion. And then she is so happy and interested in everybody she strikes one as being particularly beautiful. She dresses so well, too. She always buys her clothes carefully here at home and has them for school year. In fact, she exercises perfect taste and buys at Cherry's, at 515 13th street, where credit terms are the most liberal and the fashions and fabrics are up to the last minute mode. Cherry's have a separate store for the men folks, too, at 528 13th street."--Advertisement.

Costers Tells of Free Gasoline Reduction Made in From Scholes if You Buy An Auto

Costers, the fire man who runs his business at the little red-brick building at 22nd and Macdonald Ave., is suffering from a severe attack of fire reduction. Dr. Seiberling, of Seiberling cords, is his consulting physician and diagnosed his case as an acute attack of wanting to give tires away.

Up to a late hour last night the patient showed no improvement and his ailment will probably last all week. Those wishing to take advantage of this peculiar condition of the patient can do so according to Dr. Seiberling. Let's all go while the going is good. All tires cut from 10 to 25 per cent. And they are all standards.

An Altruist.

"It is well to leave something for those who come after us," said the man who threw a barrel in the way of the cop who was chasing him.—Boston Evening Transcript.

Red Bluff—Plans approved for \$24,000 extension to sewer system.

Frank Scholes is going to give away absolutely free 50 gallons of gasoline to everyone that buys a used car from him up until the 4th of July.

There are many real bargains to be had yet in spite of the fact that the sale has been running a week. Better take advantage of this free gas and get a real car for little money at the same time.

CYANIDE IS FOUND IN PASTOR'S DESK

SAN FRANCISCO, June 30.—A bottle of cyanide of potassium was found in the desk of Rabbi Martin A. Meyer in his study today by police investigating the source of poison which caused his death early Thursday.

Detectives George McLaughlin and Leo Bunner discovered the poison and turned it over to Professor Frank T. Green, the corner's chemist, for analysis.

The inquest into the death of the rabbi will be held some time next week.

BAD BRAKES ARE CAUSE OF FINES

New York Magistrate Determined Motorists Shall Be Ready for Any Emergency.

"A man driving an automobile which has defective brakes is as much an enemy of society as a gunman," declared Magistrate Stimmis in the New York City Traffic Court when he imposed fines ranging from \$25 to \$50 each on motorists who were arrested by the brake inspection squad of the department of public safety. The fines were paid by the prisoners who were convicted of operating pressure cars, taxicabs and motor trucks with bad brakes. In imposing the fines, the court warned the accused that a second conviction would mean a term in the workhouse.

Result of Accidents. The department of public safety is engaged in a city-wide campaign to induce motorists to give necessary attention to brakes. This drive is a result of an epidemic of automobile accidents which caused more than a dozen deaths in one week. The brake inspection squad is operating in every borough of New York. Officers use automobiles and watch others. When a machine is seen to be using brakes that have not been adjusted it is halted and the brakes are inspected. If they are in bad condition the driver is given a summons to appear in traffic court where Magistrate Stimmis is imposing heavy fines and jail sentences for second offenders.

Due to Bad Brakes. Results of the recent investigation in the Borough of Brooklyn show that 80 per cent of all auto accidents are due to bad brakes. Several cities have sent safety experts to ascertain the method employed in New York to curb this evil. At least a dozen other municipalities have inaugurated brake inspection campaigns which have resulted in a decrease in the number of accidents.

The New York city brake inspection work is being conducted under the direction of Marcus Dow, president of the National Safety Council, which recently made public statistics showing that more than 12,000 persons were victims of automobile accidents in this country last year.

At present police officers connected with the department of public safety are delivering a series of lectures on brake adjustment at daily meetings of motorists held in public garages, schools, and before civic associations.

REPAIR REAR AXLE HOUSING

One of Several Methods for Mending Broken Part of Auto Is Illustrated and Described.

When the rear axle housing of my automobile broke, I repaired it in the manner here described and illustrated. Before beginning the repairs, I wired the broken parts together by drawing

One of Several Methods of Repairing a Broken Rear Axle Housing Is Here Illustrated.

When the right from one brake drum to the other. Then I drilled and tapped several series of 1/4-inch holes in the housing, three on each side of the break for each of the strips that were intended to hold the broken parts together.

The strips, of which I used four, were eight inches long and 1/2-inch wide and 3/16 inch thick. In each of the strips I drilled six holes 1/4-inch in diameter to match the holes drilled in the housing. The strips were screwed to the housing—and then I brazed all the way around them.—A. J. Welsinger, in Popular Science Monthly.

SUBSTANTIAL GARAGE IS FARM NECESSITY

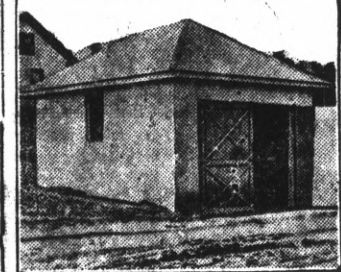

Structure Should Be Simple in Design and Built of Good Fireproof Materials.

The amount of money invested in the average farm automobile of truck justifies a substantial garage that will furnish adequate protection against weather, theft and fire. A garage should be built of substantial fireproof materials of which concrete block is probably the most convenient for use in rural regions.

Such a garage is shown in the accompanying photograph. It is 12 feet wide and 18 feet long, large enough for almost any car or truck.

The garage, since it is a small structure, should be simple in design. The walls are built up of block on a comparatively shallow foundation, also of block. A concrete floor is a decided advantage. It should be made so as to slope toward the center where a trapped drain is installed.

If the blocks are made with an attractive surface finish they can be left

Garage Built of Concrete Blocks.

exposed, otherwise they can be made with a special surface finish which affords a satisfactory base for the application of stucco.

MOVE CAR BY WHEEL SPOKES

Many Owners Make Mistake by Grabbing Door Handle or Windshield in Pushing Machine.

How do you push your car when you want to move it around the garage? Do you grab a door handle, or the windshield, or the steering wheel? Or do you use a little judgment?

There is one way to pick up a car correctly as against a half-dozen ways of killing it. It's the same with a car. Some car owners grab the fenders and manage to mark them up in excellent shape. Some of them tackle it all from the tire carrier and manage to make it looser than ever. Others strain the doors. Those who push find it's rather hard work, while those who pull on the bumper find new ways of getting back strain.

The right way, and the easiest way, is to grasp the spokes of the wheels. When you put the car out tonight note the way you take it by the nape of the neck. No other way would do. Then ask yourself why you don't exercise the same sort of care with your car.

THE SCARLETS ARE GIVEN SURPRISE AT THEIR HOME

Mr. and Mrs. Will Scarlet were surprised with a delightful party at their home, 866 Eighth street, arranged by the W. B. A. of Macabees. The evening was pleasantly spent in cards and music.

The gathering included Mesdames Rena Laufer, A. G. Schimpff, T. A. Stickey, W. A. Vickery, Carrie Holtenbaugh, Bobbie Gibson, Rose Rosier, Amelia Fry, Rose Griffin, Mary Conway, H. F. Lods, R. L. Parker, H. A. Church, Effie Reynolds, Lolita Downey, Lydie May Walker, Irene Smith, Misses Ruth Parker, Edith Church, Mary Lee Reynolds, and Cecil McSorley, Perry and Thomas Downey and Mr. Church.

Good Program Of Boxing Bouts At Opera House

Mickey O'Donnell of Martinez and Joe Bell of Pittsburg have been matched to box the main event at the fight show to be staged on next Friday evening, July 6, at the Point Richmond Opera House under the auspices of Nedderman's Athletic Club. Five other fast bouts complete the card which is expected to be even better than the excellent show put on several weeks ago.

Both fighters who will mix in the main event are well known to fans all around the bay. The two boys boxed a sensational draw at Martinez several weeks ago and should furnish the fans with lots of excitement.

Law Dennison, young Denver lightweight, who made such a hit when he defeated Young Mike Gibbons in the initial show, has been matched to meet Al Walker, Oakland colored lightweight. The youngster will have a tough time with the veteran colored fighter, but will have the crowd pulling for him to win.

It is expected that the Opera house will be jammed to the rafters with fans from all around the bay. O'Donnell will be accompanied by a large delegation from Martinez, while Bell will have many of his Pittsburg supporters with him.

The complete card follows:
Willie Burns of Emeryville vs. Jimmie Kelly of East Oakland.
Charles Sims of Albany vs. Kid Brooks of Richmond.
Johnny McFarland of Albany vs. Bert Seally of Martinez.

Jack Davis of San Francisco vs. Young Mike Gibbons of Oakland.
Law Dennison of Denver vs. Al Walker of Sacramento.

Mickey O'Donnell of Martinez vs. Joe Bell of Pittsburg.

"Polar Bear Fighter."

The black bear is always glad to drink and be merry, with its keeper, says Nature Magazine, but not the polar bear, whose attendant wisely avoids risking himself in the same enclosure.

Opportunity Waits on the Man.

The chance of a lifetime comes unheralded and unmarked. Recognition of it depends entirely on the man. Indeed, it is largely what the man makes it, what energies he devotes to it. The chance is in the man.

Reduction Made In Selling Price Silvertown Cords

The Civic Center Tire and Battery company, located at 311 23rd street, announces a reduction in Silvertown Cords and Diamond tires. Kasterick, the proprietor, said today that these tires are as low now as they probably ever will be and very likely there will be a rise in prices soon. He urges all those who contemplate buying tires to do so while the price is down.

AUTOMOBILE HINTS

Never leave your car with the shift lever in gear, and always look at this lever before starting the engine.

Leakage at the needle point will invariably cause gasoline to drop from the car when it is standing still.

Do not rush over rough places to gain momentum when driving a car up a hill. More will be accomplished by taking it easier.

A motorist should inspect the tail light of his car frequently. This light marks the position of his car for the driver coming in the rear.

Prestige Added To Auto Buyer Says J. P. Strom

"Any number of young men starting in business and professional life are buying automobiles because of the prestige it gives," says J. P. Strom, Hudson and Essex dealer.

"It is becoming more and more a fact that a business man off a wonders what's the matter with an ambitious young man who doesn't own a car."

"In many occupations the car helps its owner to such an extent that a man is losing money by not having one."

"And many employees are of the same mind as Samuel Vauclain, head of the great Locomotive Works, who recently said:

"If a man of mine hasn't got guts enough to add gasoline power to his leg power, I don't want him."

First Example of Rickets. The bones of an ape which had been confined in a Tibetan temple some 2,000 B. C. have furnished the first known example of rickets.

FLIVVERBOOB IS SERIOUS MENACE

Automobile Expert Points Out Fool Tricks Which Endanger Lives of Motorists.

(By Erwin Greer, President Greer College of Automotive Engineering.) The next time one of those fools who break their necks looking one way while they drive another nearly runs you down, turn around and yell after him, "Flivverboob!" That is the name by which he is to be known, according to the American Automobile association.

Why supposedly sane men will drive at top speed is an unsolvable mystery. Yet the speed artist is only one type of flivverboob. Another type is the "mud splasher." He is the fellow who dashes up to a mud-puddle near the curb and sends mud and water all over you. He likes to hear you cuss and the women scream.

"Explosion Hound" Another. Then there is the puffler explosion hound; you know him. The fellow with some powerful bus who rushes down the street making explosions in his muffler. If you are opposite when he goes by you nearly throw a fit from fright, much to the high glee of himself and to the disgust and contempt and antagonism of everyone else.

The graze-you gink's special delight is to come as close to your carefully groomed car as he possibly can without actually striking it. Often he miscalculates and the result is that your machine immediately resembles his, with dented mud guards and broken hub caps. If you try and collect damages you find that he owes money on his car and that you are out of luck.

The brake burner is another one of the clan; he also has a murderous complex. He comes on at a sizzling speed and then, clasp—on goes his brakes, like the seizure of a fit. His tires scrape with loud remonstrance on the pavement, his car tenses and groans, the brakes shriek—all expecting the sudden crash—and then, through the fine and lofty purpose of the car builder, things somehow hold together and an accident that time is averted. This method of action gets to be a habit and eventually a coterie pulls out and then—

Usually Saved—Usually.

A relative of his is the fear fanatic who emerges suddenly from a side street (yes, even upon our boulevards). Approaching cars dodge and swing from his path, trying to prevent accidents. The hearts of passengers leap to their throats, frightened grips are clamped on the nearest supports, screams break from the ladies and usually, by astral influence that guards the fate of fools, he is saved. Usually he is saved—usually. By the grace of the great body of honorable motorists, he is saved—usually.

The safety zone fox is another one. He comes sailing down the street to the left of a long line of automobiles waiting to cross a street intersection and tries to break into the line at the safety zone. If he can't get in he blocks the street cars because he is out on the tracks. And there is always some motorist that has to let him into the line so that traffic can move again.

And then comes the flivverboob who tries to beat the locomotive over the crossing. He is too well known to take up in detail.

A total of \$4,500,000 was paid out in death claims by American insurance companies for the 12,000 flivverboobs (and their victims) killed on the highways last year. In addition to the fatalities there were 1,500,000 non-fatal injuries. Which makes us wonder—

Why is a flivverboob?

TO BEAT GLARING HEADLIGHT

Catch Up With Car Ahead and About 100 Feet Behind It—Path Then Clearly Marked.

Here is a suggestion for any driver who is annoyed by glaring headlights. Make it a point to catch up with the car ahead and keep about 100 feet behind it. The path ahead will then be clearly marked and the rays from approaching headlights will not matter.

Wasco to start shipment of \$225,000 fruit and vegetable crop.

One Reason for Mounting Sales

Hupmobile reliability, dashing performance, long life, low costs, these are all important reasons for the unprecedented sales records which the Hupmobile is making.

There is another reason, even more important.

Owners of cars whose first cost is less, are finding that they can obtain much more motor car

economy and enjoyment in the Hupmobile for a slightly higher original price.

Owners of higher priced cars are discovering that the Hupmobile gives them all the practical advantages that costlier cars can give.

Hupmobile value makes powerful appeal to both classes of buyers.

Just Town Talk

Copied Right by R. De B.

DOCTOR HELY stopped me
IN FRONT of his office
ON Macdonald Ave
YESTERDAY afternoon
AND WE were standing there
TALKING about President Hardins
AND HIS trip to Alaska
AND CUSSING and discussing
OTHER questions of interest
AND WHILE we were standing
LISTENING to each other
VOICING OUR opinions
TWO LITTLE girls
SEVEN or eight years old
CAME OUT of the drug store
AND WERE chewing away
ON SOME taffy candy
ANW WHEN they saw
DOCTOR HELY.
ONE OF them smiled
AND SAID real poffety
'HELLO, Doctor Hely.'
AND DOC smiled back
AND WAVED his hand
AND THEY continued
ON THEIR way

AND ABOUT that time
I HAD to leave
AND A few paces along
I OVERTOOK the girls
AND ONE of them said
'THAT WAS Doctor Hely
'AND HE'S an awfully nice man
'CAUSE THREE weeks ago
'HE CAME to our house
'AND HE left
'THE SWEETEST little baby
'THAT EVER came to town'
AND THE other
SPOKE UP and said
'YES, I know him
'WE TAKE from him, too'
AND AS I turned
TO WALK along
I HEARD ONE of them
SAY TO the other
THAT SHE surely wished
SHE COULD go
INTO THE doctor's o.ice
AND SEE the stock of babies
HE HAD on hand
BECAUSE SHE believed

Novelty Program Arranged on Bill At T. & D. Theater

Today Miss Robbie Cordone in a series of artistic poses will be one of the attractions at the Richmond T. & D. Theatre. This artist is an accomplished star from the Orpheum circuit.

King-Kutie-King is a dancing act that is bound to please. Miss Kutie being a graceful toe dancer and her partner a former Russian dancing school student.

'Holly' known as the 'Golden Voice' portrays a small town hick character. He has been in several large stage successes. Larry Ward and Michael King are two clever young singers and dancers and will add a quantity of life and pep to the bill.

As a special feature Robert Carlson, who just completed a year's engagement with the Hartman, Steindorf Opera company will sing. He will appear each day during the week as a special attraction.

Carl Richard's jazz boys will play during the vaudeville program to-day while Larry F. Canelo will be at the organ.

The feature picture is Viola Dana in 'There Are No Villains,' a youthful, sleuthful comedy drama about two kinds of rings, of gum and wedding.

Woodland—Elks Club to build \$85,000 home.
Berkeley—Contract awarded for widening of Telegraph avenue.

SHE'D LIKE to pick out
THREE OR four others
SO SHE could have 'em
AROUND THE house
TO PLAY with
WHENEVER SHE got ready
I THANK you.

To Make Effort To Limit Speed Santa Fe Trains

In an effort to prevent fatal accidents at grade crossings in El Cerrito, the city trustees of that city have passed a city ordinance limiting the speed of trains to 15 miles an hour in the city limits. The action was taken following the killing of D. A. Sprackland at the Stockton street crossing last week, the tragedy being only one of many at the grade crossing in El Cerrito during the past year.

The city trustees, officials of the Santa Fe railroad and the state rail-

road commission recently investigated the matter of establishing crossing signals, but the railroad commission examiner stated that he would recommend that all the crossings except six be closed. Although desiring safety, the city trustees want all crossings open.

FUNERAL SERVICE OF LUTHERAN MINISTER

Funeral services for Winfield Scott Hoskinson, retired Lutheran minister who died on Friday at the family home, 533 Eighth street, were held yesterday from the Wilson and Kratzer undertaking parlors. Rev. Grover of Oakland officiated.

Riverside—Kings Food Products Co. planning to establish 'dehydration plant.

Sisters Agree To Swap Husbands In Love Tangle

KANSAS CITY, Mo., June 30.—A strange story of a love tangle in which sisters would trade husbands and husbands swap wives, was told here today by Mrs. Alta Jeffers Michaels, 15 year old runaway bride.

Mrs. Michaels was arrested with Ira O. Anderson, 23, her brother-in-law. The Michaels and Andersons lived in the same house in Oklahoma City.

'Velma, my sister, liked Allen, my husband, the best and I liked Ira, her husband, the best,' said Alta in

jail. 'Some time ago we were joking about it, and we agreed that we should exchange. And the other day, Ira and I just picked up and left Oklahoma City.'

THREE IN ONE FAMILY BORN BORN ON JUNE 29

The third child to be born in one family on the same day of different years arrived on June 29 at the home of Mr. and Mrs. Joseph Campos, 214 Barrett avenue. The youngster is a girl and she and the mother are reported to be getting along nicely. Dr. Clara Spalding was in attendance. Campos is employed at the Santa Fe foundry here.

Stockton—Western Pacific to build flood control levees to protect proposed railway yards.

The Spirit Of '76

'Breathes there a man
With soul so dead
Who never to himself
Hath said:
This is my own,
My native land.'

The 4th of July is close at hand—that glorious day when Liberty was proclaimed throughout the land by stalwart men and women ready to sacrifice everything for that liberty we now enjoy.

This day is an occasion when we should sum up the accomplishments that have flowed from the Turrets of Bunker Hill.

Scarcely 150 years since Paul Revere's ride, and that ride, made freedom possible. Freedom to do and to live to march, unshackled in the aisles of progress, to carry those banners which the ghosts of Valley Forge once lifted.

In that calm after battle, resting in the sweets of Victory, let us be Americans.

Additional Interest

All deposits made on the 2nd of July and up until the 15th inclusive will receive full six-months interest.

You cannot afford to overlook this liberal offer. This time, more than ever before is the proper time to start an account.
